SUSTAINABILITY FOR A BETTER FUTURE

SUSTAINABILITY IS A MAJOR PART OF THE PULCRA CHEMICALS PHILOSOPHY AND COMMITMENT

Pulcra Chemicals aims to succeed as a business by increasing the productivity and environmental compatibility of complex manufacturing processes in the fiber, textile, and leather industries. This means that Pulcra addresses the regulatory requirements in most important target markets and the trends related to health, safety, ecological sustainability and innovation.

Together with our exemplary social commitment and the continuous development and training of our employees, this approach is the key to our philosophy of sustainable development.

The Pulcra Chemicals product line fully complies with Europe's newest chemical requirements (REACH). We register our products according to textile eco-standards and criteria including OEKO-TEX®, GOTS, ZDHC and bluesign®
